## EXPERIENCE

### Omniversity, Vancouver (Remote) — *Web Developer Intern*

JANUARY 2022 - PRESENT

- Developed the website using WordPress and PHP (scripting language), while developing and maintaining the backend with Java.

### Wealthsimple, Kingston — *Brand Ambassador*

SEPTEMBER 2021 - NOVEMBER 2021

- Promoted the Wealthsimple Cash app to students.
- Educated countless students of the perks that Wealthsimple has to offer.

### Aramark, Kingston — *Food Service Worker*

SEPTEMBER 2021 - PRESENT

- Recruited by Aramark to serve Queen's University students at Booster Juice.
- Prepared and served students' orders in a timely fashion.

### McDonald's, Richmond Hill — *Crew Trainer*

APRIL 2018 - AUGUST 2021

- Used POS system to scan customer purchases, calculate prices, and process transactions.
- Trained numerous co-workers on making orders, taking orders, and also serving orders efficiently.
- Awarded "Employee of the Month" several times.

## PROJECTS

### Snake Game

- A video game where the goal is to survive for as long as possible, while eating fruits/power-ups which will allow the length of the snake to increase.
- Developed with Python Arcade.

### Space Invaders Game

- Used PyGame to create a game for a Grade 10 final project. The goal is to survive an endless wave of space invaders by killing enemies and gain points by doing so.
- This game focuses on concepts such as object-oriented programming, importing images, and iteration.
